# ATP Cummins - Leroy Somer Series

# 

A .		-	🖗 ATLANTIC POWE
	*##	1	

# ATP630-CMM/LS

#### **Main Features**

Standby Power (STP)	630 kVA	505 kW
Continuous Power (PRP)	525 kVA	420 kW
Continuous Power (COP)	- kVA	- kW

#### Soundproof

Length (L)	4200 mm	
Height (H)	2480 mm	
Width (W)	1900 mm	I I I I I I I I I I I I I I I I I I I
Weight	5450 kg	
Daily deposit	900 L	WL
		50Hz
Diesel engine	113.6 dB(A)	
Noise test performed at 100% of ESP power, at a distance of 1 m, with the engine without a radiator, without a cooling fan, and without a silencer.		

#### Installation in room

Sistema de escape	Sistema de escape 50Hz		
	COP	PRP	STP
Maximum backpressure (kPa)	10		
Maximum static weight supported on the turbocharger outlet flange (N.m) -		-	
Maximum intake air restriction with heavy-duty air filter		-	
Dirty Element (kPa) Clean Element (kPa)		-	
Max. exhaust pipe diameter (mm) 127		127	

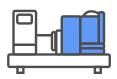

Fuel System		50Hz	
	COP	PRP	STP
Maximum allowed restriction (kPa)	-	-	13,55
Maximum allowed restriction for the PT fuel pump with check valves (kPa)		22	
Minimum allowed fuel tank ventilation capacity (L/h)			425

Electric System		50Hz	
	COP	PRP	STP
Starter engine (Vdc)		24	
Battery charging system, negative ground (A)	35		
Maximum allowed resistance of the starting circuit $\left(\Omega\right)$		0,002	
Minimum recommended battery capacity — Cold soak @ 0 to 32°F (-18 to 0°C)		900	

#### **Engine specifications**

General specifications	50 Hz
Model	KTAA19-G5
Emissions	Not applicable
Performance Grade	G2
Operating Method	Four-stroke
Fuel Type	Diesel
Cooling System	Liquid (water + 50% antifreeze)
Aspiration System	Turbocharged
Injection System	Direct injection Cummins PT
Number and Arrangement of Cylinders	V6
Displacement (L)	19,0
Cylinder Bore (mm)	159
Cylinder Stroke (mm)	159
Compression Ratio	13.9:1
Regulation	Electronica
Rotational Speed	1500
Oil Capacity (L)	199
Gross Power COP (kWm)	354
Gross Power PRP (kWm)	448
Gross Power STP (kWm)	504
Coolant Capacity (L)	50
Net Power COP (kWm)	-
Net Power PRP (kWm)	-
Net Power STP (kWm)	-

Consumption		60Hz		
Fuel consumption	Charge	lt/h	g/kWh	
STP	100%	134	204	
	100%	114	204	
PRP	75%	86,9	206	
РКР	50%	57,1	182	
	25%	33,3	143	
Fuel supply flow (L/h)		134		
Condiciones de refe	rencia			
Temperature (°C)		25		
Atmospheric pressure (kPa)		100		
Sistema de arranque				
Voltage (V)		24		
Standard thermostat range (°C)		82	-93	

### **Alternator specifications**

General specifications		
Model	TAL-A473-E	
Number of Phases	Three-phase	
Protection	IP23	
Insulation	н	
Heating	Н	
Waveform IEC = THF:	THF<2%	
Waveform NEMA = TIF:	TIF<50	
Coupling	Flex plate	
Support	Monopalier	

No-load waveform distortion	< 1,5%
Load waveform distortion	< 5%
Number of windings	6
Excitation (standard / option)	SHUNT / AREP+
AVR Model (standard / option)	R150 / R180
Voltage Regulation (standard / option)	± 0,8 % / ± 0,5 %

## **Starter Battery**

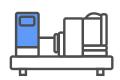

- <b>BB</b> -	Battery voltage	
+ -	Battery Capacity	
	Amount	
	Battery type	Maintenance-free, sealed lead-acid type

Aplications DSE6110/20
Automatic or manual start *
Remote start by dry contact NA *
Automatic due to network failure
Alternation with distributed time
Multi-generators in synchronism with load (Max 32 generators) (m)
Generator-grid i n synchronism and with load sharing (1 generator and 1 grid) (m)
Optional Expansions DSE6110/20
DSE2130 (8 digital inputs)   I G-IOM (8 digital inputs/outputs + 4 analog inputs)I G-08 ( 8 ent. dig.)
DSE2157   I -RB8   G-06 (8 relay outputs)
DSE2548   IGL-RA15   - (expansion with 8 Additional LEDs *
DSE2510/20 (mirror controller, max distance 1km) *
Rules
Working temperature -30 -> 70°C
Protection index (when mounted with sealing gasket) IP65
Maximum humidity level (for 48 h) 93% / 40°C

#### Legend

*	Available	[4]	Needs an additional ammeter
-	Optional	[5]	If the information is provided by the engine ECU
X	Not available	[6]	Requires an additional sensor
Q	Warning alarm	[7]	Need to include an additional IL-NT-S-USB module
⊗	Stop alarm	[8]	Need to include an additional IL-NT-RS232-485 module
[1]	Need an additional IT	[9]	DeepSea: Needs to include an additional DSE891 module/ComAp: Needs to include an additional IB-LITE module
[2]	Number of outputs available for standard configuration. Outputs do not include relays or additional wiring to terminals.	[10]	DeepSea: Needs to include an additional DSE890 module/ComAp: Needs to include an additional IL-NT-GPRS module
[3]	If the information is not provided by the engine ECU, an additional sensor needs to be included.	[11]	DeepSea: Needs to include an additional DSE892 module/ComAp: Needs to include an additional IB-LITE module

#### Emergency Standby Power (ESP)

Emergency standby power is the maximum power available to a variable load during a main power grid failure. The average load factor over 24 hours of operation must not exceed 70% of the motor's ESP rated power. Typical motor operating hours are 200 hours per year, with a maximum usage of 500 hours per year.

This includes an annual maximum of 25 hours per year at the ESP power rating. Overload capability is not permitted. The motor must not be used for sustained utility parallel applications.

#### Main Power (PRP)

Prime Power is the maximum power available for unlimited hours of use in a variable load application. The average load factor must not exceed 70% of the motor's PRP rating during any 24-hour period. A 10% overload capability is available; however, it is limited to 1 hour within each 12-hour period.

- 1. All ratings are based on operating conditions according to ISO 8528-1, ISO 3046, DIN6271. Performance tolerance ±5%.
- 2. Test conditions: 100 kPa, 25°C air inlet temperature, 30% relative humidity, with fuel density of 0.84 kg/L. Derating may be required for conditions outside these, contact factory for details.
- 3. Power output curves are based on engine operation with fuel system, water pump and lubricating oil pump; battery charging alternator, fan and optional equipment are not included.
